

Bright Bars

Bright Bars:

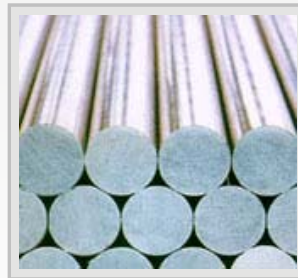

We manufacture a range of high tensile strength steel bright bars that are manufactured using finest quality steel. We offer bright bars in peeled and black drawn condition as per demand. This can be provided in different grades and sizes as per the demands of Customers.

We have fully automatic production capacity for bright bar drawing / peeling. The Steel bars are well polished and ensure corrosion resistance. The sizes ranging from 5.5 mm to 70 mm in close tolerances can be provided to minimize wastages of turning and grinding time.

These bright bars find usage for the following application:

- Engineering Industries
- Automotive components
- Welding Electrodes
- Conveyor Belt
- Kitchen Appliances
- Pump Shafts
- Machined Components
- Fasteners
- Overhead Crane
- Earth Moving Equipments
- Railway Parts
- Gear Manufacturers
- Hydraulic Pump Manufacturers
- Threaded Bars, Studs, Bolts, Pins, Hinges and Handles.
